it's really nice napkin drawing, i like that you guys specify what question each visual is answering, makes it clear what we're looking for in the visuals

i also like the detail for each visual and each visual seems appropriate for what you're trying to accomplish

the only thing is the color is a bit too bright, the text is kind of hard to see without zooming in

I will send the link to my napkin drawing.

Looks super neat and organized! All your axes are labeled and every graph is clearly described, so everything looks great. My only question would be if you guys are going to include any visualizations about your ml model on your dashboard?
